[NAME], Deputy Director  
Division Materials Safety and State Agreements  
Office of Federal and State Materials and  
Environmental Management Programs  
U.S. Nuclear Regulatory Commission  
T8-E24  
Washington, D.C. 20555-0001

Dear [NAME]:

Enclosed is a copy of the final revisions to the [STATE] Radiological Health Rules [identify the regulations using the title or description and date of regulations]. The final regulations are identified by line-in/line-out text (or similar identification) and correspond to the following equivalent amendments to NRC's regulations.

<u>Rats ID</u>	<u>Title</u>	<u>State Section</u>
• 2000-2	New Dosimetry Technology	[STATE CODE]
• 2001-1	Requirements for Certain Generally Licensed Industrial Devices Containing Byproduct Material	[STATE CODE]

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure SA-200.

(If there are issues) The following are [number] issues that we would like the NRC to address:

1. Description of issue.
2. Description of issue.

(If the regulations do not satisfy the compatibility and health and safety designation, identify those sections and describe the State's rationale for promulgating a regulation that is not compatible with NRC's regulation. Describe any constraint that prevents the State from promulgating a regulation that satisfies the compatibility and health and safety category and whether the program is examining removal of the constraints. For other legally binding requirements, the State should demonstrate that they are legally binding.)

If you have any questions, please feel free to contact me at [PHONE NUMBER] or [STATE CONTACT] of my staff at [PHONE NUMBER] or [E-MAIL ADDRESS].

Sincerely,

(Name of Radiation Control Program Director or  
designee), (Director or title of designee)  
(Radiation Control Program)
