NRC relies on State support to:

• Ensure the safe use and security of nuclear materials
• Support environmental monitoring and emergency response efforts
  – Nuclear power plants
  – Large materials licensees
  – Radioactive source licensees
  – Transporters of radioactive materials
Potential Areas of Open Discussion

- Current economic climate best practices
- Hiring freeze and salary limit implications
- Program, travel, and training impacts
- Use and effectiveness of teleconferences and web-conferencing
- Appropriate NRC actions to support the States
