March 18, 2009

Ms. Ruth E. McBurney  
Executive Director  
Conference of Radiation Control Program Directors, Inc.  
1030 Burlington Lane, Suite 4B  
Frankfort, KY 40601  

Dear Ms. McBurney:

In your letter dated February 24, 2009, you requested that the Nuclear Regulatory Commission (NRC) provide federal concurrence for “Part B” to the Suggested State Regulations for Control of Radiation, “Registration [Licensure] Of Radiation Machine Facilities, [Services] and Associated Healthcare Professionals.”

We believe these regulatory requirements are important, however, given that “Part B” is outside of NRC’s regulatory authority, we did not conduct a review of the final regulation. As is our practice, NRC does not provide federal concurrence on Suggested State Regulations which are not within NRC regulatory jurisdiction. If you have any questions, please contact Kathleen Schneider, State Regulation Review Coordinator at 301-415-2320 (kathleen.schneider@nrc.gov).

Sincerely,

/RA/

Robert J. Lewis, Director  
Division of Materials Safety and State Agreements  
Office of Federal and State Materials and Environmental Management Programs
