Mr. Thomas A. Kerr, Executive Director
Conference of Radiation Control Program Directors, Inc.
205 Capital Avenue
Frankfort, KY 40601

Dear Mr. Kerr:

We have reviewed the proposed changes to the Conference of Radiation Control Program Directors', Inc. (CRCPD) Suggested State Regulations for Control of Radiation (SSRCR) "Part Q - Licensing and Radiation Safety Requirements for Irradiators" received by our office on May 25, 2005. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Part 36 and the equivalent requirements of the one amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Dr. Terry L. Devine on June 7, 2005.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a CRCPD regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final CRCPD regulation. However, we have determined that if your proposed regulations were adopted, without other significant changes, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure [SA-200](#).

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure [SA-201](#), "Review of State Regulatory Requirements," please highlight the final changes and provide a copy to STP.

The SRS Data Sheet summarizes our knowledge of the status of other CRCPD regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Lloyd Bolling of my staff at (301) 415-2327 or by e-mail at LAB@NRC.GOV.

Sincerely,
