Dennis P. O’Dowd  
Acting Administrator  
Radiological Health Section  
Department of Health and Human Services  
Division of Public Health Services  
29 Hazen Drive  
Concord, NH 03301-6504

Dear Mr. O’Dowd:

We have reviewed the proposed changes to the New Hampshire Rules for the Control of Radiation, Administrative Code He-P 4000, received by our office on March 30, 2005. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 20, 30, 31, 32, 34, 35, 36, 39, 71 and 150 and the requirements of the 10 amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on April 8, 2005.

As a result of our review, we have eleven comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the New Hampshire regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final New Hampshire regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the “as published” regulations be provided to us for review. As requested in STP Procedure SA-201, “Review of State Regulatory Requirements,” please highlight the final changes and provide a copy to STP.

The SRS Data Sheet summarizes our knowledge of the status of other New Hampshire regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website:  http://www.hrsd.ornl.gov/nrc/rulemaking.htm.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Aaron McCraw at 301-415-1277 or by e-mail at atm@nrc.gov.

Sincerely,

IRA By

Paul H. Lohaus, Director  
Office of State and Tribal Programs

Enclosures: As stated

| 1             | N/A         | 30.35(g), 40.36(f) 70.25(g) | 1996-3    | H&S  
Financial assurance and recordkeeping for decommissioning  
New Hampshire has omitted requirements for the transfer of records pertaining to decommissioning in their regulations.  
New Hampshire needs to adopt the essential objectives of the requirements for the transfer of decommissioning records to the new licensee to meet the Category H&S designation assigned to Section 30.35(g), 40.36(f), and 70.25(g). |
| 2             | N/A         | 30.36(k)(4), 40.42(k)(4), 70.38(k)(4) | 1996-3    | H&S  
Expiration and termination of licenses and decommissioning of sites and separate buildings or outdoor areas  
New Hampshire does not have exact requirements for the submission of decommissioning records required by 10 CFR 30.51 or its equivalent State regulation. New Hampshire has generic requirements for the termination of licenses, including a submittal of Form BRH-10. Without a formal review of this form, it is indeterminable whether the generic blanket statement for all license terminations will meet the essential objectives of 10 CFR 30.36(k)(4).  
New Hampshire needs to adopt the essential objectives for license terminations after decommissioning or demonstrate that their Form BRH-10 does meet the Category H&S designation assigned to Section 10 CFR 30.36(k)(4). |
